l ile noire tintin: Dimensions of Iconicity Angelika Zirker, Matthias Bauer, Olga Fischer, Christina Ljungberg, 2017-09-08 This volume addresses five different Dimensions of Iconicity. While some contributions examine the phonic dimensions of iconicity that are based on empirical, diachronic and theoretical work, others explore the function of similarity from a cognitive point of view. The section on multimodal dimensions takes into account philosophical, linguistic and literary perspectives in order to analyse, for example, the diagrammatic interplay of written texts and images. Contributions on performative dimensions of iconicity focus on Buddhist mantras, Hollywood films, and the dynamics of rhetorical structures in Shakespeare. Last but not least, the volume also addresses new ways of considering iconicity, including notational iconicity, the interplay of iconicity, ambiguity, interpretability, and the iconicity of literary analysis from a formal semanticist point of view.

l ile noire tintin: Masters of the Ninth Art Matthew Screech, 2005-01-01 In English-speaking countries, Francophone comic strips like Hergés's Les Aventures de Tin Tin and Goscinny and Uderzo's Les Aventures d'Asterix are viewed—and marketed—as children's literature. But in Belgium and France, their respective countries of origin, such strips—known as bandes dessinées—are considered a genuine art form, or, more specifically, the ninth art. But what accounts for the drastic difference in the way such comics are received? In *Masters of the Ninth Art*, Matthew Screech explores that difference in the reception and reputation of bandes dessinées. Along with in-depth looks at Tin Tin and Asterix, Screech considers other major comics artists such as Jacque Tardi, Jean Giraud, and Moebius, assessing in the process their role in Francophone literary and artistic culture. Illustrated with images from the artists discussed, *Masters of the Ninth Art* will appeal to students of European popular culture, literature, and graphic art.

I le noir tinte: The Clear Line in Comics and Cinema David Pinho Barros, 2022-06-30
 Historical and theoretical analysis of the “clear line” style in comics and cinema The “clear line”, a term coined in 1977 by Dutch essayist and artist Joost Swarte, has become shorthand in the field of comics studies for the style originally developed by Hergé and the École de Bruxelles. It refers to certain storytelling strategies that generate a deceptively simple, lucid, and hygienic narration: in Philippe Marion’s words, it is a style “made out of light, fluidity and limpid clarity”. By cataloguing and critically analysing clear line comics from historical and theoretical perspectives, this book offers a new outlook on the development of the style in the 20th and 21st centuries, especially focused on the context of the European bande dessinée. In addition, it pioneeringly expands the concept of “clear line” to other artistic domains by introducing and defending its transmedial use, which is particularly relevant for the understanding of the oeuvres of certain filmmakers of the 20th century working in the postwar period, such as Yasujiro Ozu in Japan, Jacques Tati in France and Frank Tashlin in the United States. The Clear Line in Comics and Cinema is therefore a key theoretical work for both bande dessinée enthusiasts and comics scholars, as well as a fundamental contribution to present-day film studies and transmedial narratology.

I le noir tinte: The Comics of Hergé Joe Sutliff Sanders, 2016-07-28 Contributions by Jônathas Miranda de Araújo, Guillaume de Syon, Hugo Frey, Kenan Koçak, Andrei Molotiu, Annick Pellegrin, Benjamin Picado, Vanessa Meikle Schulman, Matthew Screech, and Gwen Athene Tarbox
 As the creator of Tintin, Hergé (1907–1983) remains one of the most important and influential figures in the history of comics. When Hergé, born Georges Prosper Remi in Belgium, emerged from the controversy surrounding his actions after World War II, his most famous work leapt to international fame and set the standard for European comics. While his style popularized what became known as the “clear line” in cartooning, this edited volume shows how his life and art turned out much more complicated than his method. The book opens with Hergé’s aesthetic techniques, including analyses of his efforts to comprehend and represent absence and the rhythm of mundaneness between panels of action. Broad views of his career describe how Hergé navigated changing ideas of air travel, while precise accounts of his life during Nazi occupation explain how the demands of the occupied press transformed his understanding of what a comics page could do. The next section considers a subject with which Hergé was himself consumed: the fraught lines between high and low art. By reading the late masterpieces of the Tintin series, these chapters situate his artistic legacy. A final section considers how the clear line style has been reinterpreted around the world, from contemporary Francophone writers to a Chinese American cartoonist and on to Turkey, where Tintin has been reinvented into something meaningful to an audience Hergé probably never anticipated. Despite the attention already devoted to Hergé, no multi-author critical treatment of his work exists in English, the majority of the scholarship being in French. With contributors from five continents drawing on a variety of critical methods, this volume’s range will shape the study of Hergé for many years to come.

l ile noire tintin: Tintin and Alph-Art Hergé and Rodier, 2019-01-26 This book is a pastiche by Y. Rodier, in homage to Hergé's last album. The twenty-fourth adventure of Tintin, 'Tintin and Alph-Art', was left unfinished at the time of Hergé's death on the 3rd of March, 1983. Since then, several artists have tried their hand at finishing this ultimate adventure of Tintin. Presented here is the version drawn by Yves Rodier, a Canadian artist, in an English translation by Richard Wainman. The intention, when creating this translation, was to remain as faithful to the original as possible, and therefore, new place names and character names have not been anglicised. This practice, which was carried out by the English translators, Leslie Lonsdale-Cooper and Michael Tumer for the books in the established canon, has not been used here.

l ile noire tintin: Comics in French Laurence Grove, 2010 Whereas in English-speaking countries comics are for children or adults 'who should know better', in France and Belgium the form is recognized as the 'Ninth Art' and follows in the path of poetry, architecture, painting and cinema. The bande dessinée [comic strip] has its own national institutions, regularly obtains front-page coverage and has received the accolades of statesmen from De Gaulle onwards. On the way to providing a comprehensive introduction to the most francophone of cultural phenomena, this book considers national specificity as relevant to an anglophone reader, whilst exploring related issues such as text/image expression, historical precedents and sociological implication. To do so it presents and analyses priceless manuscripts, a Franco-American rodent, Nazi propaganda, a museum-piece urinal, intellectual gay porn and a prehistoric warrior who's really Zinedine Zidane.

l ile noire tintin: The Factory of Facts Lucy Sante, 2012-09-12 The acclaimed author of Low

Life reinvents the memoir in a cunning, lyrical book that is at once a personal history and a meditation on the construction of identity. Born in Belgium but raised in New Jersey, Lucy Sante transformed herself from a pious, timid Belgian child into a boisterous American adolescent, who eschewed French while fantasizing about the pop star Françoise Hardy. To show how this transformation came about--and why it remained incomplete--The Factory of Facts combines family anecdote and ancestral legend; detailed forays into Belgian history, language, and religion; and deft synopses of the American character.

1 ile noire tintin: Truths, Half Truths and Little White Lies Nick Frost, 2015-10-08 'If I'm going to tell the story of a life, my life, then I need to tell it warts and all. If the tale is too saccharine sweet then what can the reader take away from it? What do they learn about you? I've written everything down. The shit, the death, fun, naughtiness, addiction, laughter, laughter, laughter, some tears and lots of love and happiness. That to me is a better reflection of a human's life.' Nick's family life was difficult, blighted by alcoholism, illness and sudden misfortune meaning they lost everything overnight. He left school early and drifted from job to job dogged by his own personal demons. It's something of a miracle that Nick survived and even more that he would achieve such success with his writing, acting and comedy. In Truths, Half Truths and Little White Lies Nick paints a brilliantly funny, moving and brutally candid portrait of childhood, adolescence and eventual success.

1 ile noire tintin: Transnational French Studies Charles Forsdick, Claire Launchbury, 2023-10-01 The contributors to Transnational French Studies situate this disciplinary subfield of Modern Languages in actively transnational frameworks. The key objective of the volume is to define the core set of skills and methodologies that constitute the study of French culture as a transnational, transcultural and translingual phenomenon. Written by leading scholars within the field, chapters demonstrate the type of inquiry that can be pursued into the transnational realities - both material and non-material - that are integral to what is referred to as French culture. The book considers the transnational dimensions of being human in the world by focussing on four key practices which constitute the object of study for students of French: language and multilingualism; the construction of transcultural places and the corresponding sense of space; the experience of time; and transnational subjectivities. The underlying premise of the volume is that the transnational is present (and has long been present) throughout what we define as French history and culture. Chapters address instances and phenomena associated with the transnational, from prehistory to the present, opening up the geopolitical map of French studies beyond France and including sites where communities identified as French have formed.

1 ile noire tintin: A Critical History of French Children's Literature Penelope E. Brown, 2011-01-07 This two-volume critical history of French children's literature from 1600 to the present helps bring awareness of the range, quality, and importance of French children's literature to a wider audience. The works of a number of French writers, notably La Fontaine, Charles Perrault, Jules Verne, and Saint-Exupéry were, and continue to be, widely translated and adapted, and have influenced the development of the genre in other countries.

1 ile noire tintin: Postcolonialism and Migration in French Comics Mark McKinney, 2021-01-14 Profound analysis of French comics through a postcolonial lens Postcolonialism and migration are major themes in contemporary French comics and have roots in the Algerian War (1954-62), antiracist struggle, and mass migration to France. This volume studies comics from the end of the formal dismantling of French colonial empire in 1962 up to the present. French cartoonists of ethnic-minority and immigrant heritage are a major focus, including Zeina Abirached (Lebanon), Yvan Alagbé (Benin), Baru (Italy), Enki Bilal (former Yugoslavia), Farid Boudjellal (Algeria and Armenia), José Jover (Spain), Larbi Mechkour (Algeria), and Roland Monpierre (Guadeloupe). The author analyzes comics representing a gamut of perspectives on immigration and postcolonial ethnic minorities, ranging from staunch defense to violent rejection. Individual chapters are dedicated to specific artists, artistic collectives, comics, or themes, including avant-gardism, undocumented migrants in comics, and racism in far-right comics.

I le noire tintin: From Comic Strips to Graphic Novels Daniel Stein, Jan-Noël Thon, 2015-04-24 This essay collection examines the theory and history of graphic narrative as one of the most interesting and versatile forms of storytelling in contemporary media culture. Its contributions test the applicability of narratological concepts to graphic narrative, examine aspects of graphic narrative beyond the 'single work', consider the development of particular narrative strategies within individual genres, and trace the forms and functions of graphic narrative across cultures. Analyzing a wide range of texts, genres, and narrative strategies from both theoretical and historical perspectives, the international group of scholars gathered here offers state-of-the-art research on graphic narrative in the context of an increasingly postclassical and transmedial narratology. This is the revised second edition of *From Comic Strips to Graphic Novels*, which was originally published in the *Narratologia* series.

I le noire tintin: European Comics in English Translation Randall William Scott, 2002 European comic authors produced a steady stream of comic material throughout the twentieth century, but gained the world's notice in 1975 when the French magazine *Métal Hurlant* was founded. A new generation of artists and writers had begun. Soon publishers were producing translations of the new comics into other languages, including English, and comics creators everywhere were inspired to innovation. This is a reference work, arranged by artist or writer, to European comics from the last quarter of the twentieth century that have been translated from any European language into English. It contains a variety of material, from the innocent imperialism of Herge's Tintin to the sadistic murder for hire in Bernet's *Torpedo*. Albums by a single creator or artist-and-writer team of European origin are the focus; comics in periodicals and anthologies with multiple contributors are excluded. Each entry provides a plot abstract and various notes about the original comic. An author index provides brief biographical information. There is a comprehensive general index.

I le noire tintin: *Translating Children's Literature* Gillian Lathey, 2015-07-24 *Translating Children's Literature* is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature, from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering: · Narrative style and the challenges of translating the child's voice; · The translation of cultural markers for young readers; · Translation of the modern picture book; · Dialogue, dialect and street language in modern children's literature; · Read-aloud qualities, wordplay, onomatopoeia and the translation of children's poetry; · Retranslation, retelling and reworking; · The role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from commentaries and interviews with

published translators of children's literature, as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students. Translating Children's Literature is essential reading for professional translators, researchers and students on courses in translation studies or children's literature.

File noire tintin: The French Comics Theory Reader Ann Miller, Bart Beaty, 2014-06-24 Key French-language theoretical texts on comics translated into English for the first time The French Comics Theory Reader presents a collection of key theoretical texts on comics, spanning a period from the 1960s to the 2010s, written in French and never before translated into English. The publication brings a distinctive set of authors together uniting theoretical scholars, artists, journalists, and comics critics. Readers will gain access to important debates that have taken place among major French-language comics scholars, including Thierry Groensteen, Benoît Peeters, Jan Baetens, and Pierre Fresnault-Deruelle, over the past fifty years. The collection covers a broad range of approaches to the medium, including historical, formal, sociological, philosophical, and psychoanalytic. A general introduction provides an overall context, and, in addition, each of the four thematic sections is prefaced by a brief summary of each text and an explanation of how they have influenced later work. The translations are faithful to the originals while reading clearly in English, and, where necessary, cultural references are clarified.

File noire tintin: The Narratology of Comic Art Kai Mikkonen, 2017-05-08 By placing comics in a lively dialogue with contemporary narrative theory, The Narratology of Comic Art builds a systematic theory of narrative comics, going beyond the typical focus on the Anglophone tradition. This involves not just the exploration of those properties in comics that can be meaningfully investigated with existing narrative theory, but an interpretive study of the potential in narratological concepts and analytical procedures that has hitherto been overlooked. This research monograph is, then, not an application of narratology in the medium and art of comics, but a revision of narratological concepts and approaches through the study of narrative comics. Thus, while narratology is brought to bear on comics, equally comics are brought to bear on narratology.
