anne valerie noir ardisson: Cry Father Benjamin Whitmer, 2014-09-16 The second novel from the critically acclaimed writer of Pike, which was nominated for France's prestigious Grand Prix de Littérature Policière crime fiction award and "easily rivals Larry Brown's most renowned novels" (Spinetingler Magazine). In the tradition of Cormac McCarthy and Larry Brown comes a haunting story about men, their fathers, their sons, and the legacy of violence. For Patterson Wells, disaster is the norm. Working alongside dangerous, desperate, itinerant men as a tree clearer in disaster zones, he's still dealing with the loss of his young son. Writing letters to the boy offers some solace. The bottle gives more. Upon a return trip to Colorado, Patterson stops to go fishing with an old acquaintance, only to find him in a meth-induced delirium and keeping a woman tied up in the bathtub. In the ensuing chain of events, which will test not only his future but his past, Patterson tries to do the right thing. Still, in the lives of those he knows, violence and justice have made of each other strange, intoxicating bedfellows. Hailed as "the next great American writer" (Frank Bill, author of Crimes in Southern Indiana), Benjamin Whitmer has crafted a literary triumph that is by turns harrowing, darkly comic, and wise.

anne valerie noir ardisson: Merci qui ? François Cérésa, 2013-04-03 Lucky, 50 ans, ancien mannequin, est l'auteur d'un unique best-seller. Se prenant peu à peu pour un écrivain, il s'attache les services d'un jeune homme, Pierre-François Coblence, universitaire fasciné par le monde de la mode, qui le pousse à écrire Les Misérables du XXI^e siècle. Comme le héros d'Un diable au paradis, d'Henry Miller, Lucky va se lier à Coblence jusqu'à l'addiction. Il y perdra sa femme, son métier, son appartement, et presque... son identité. Ce livre est à la fois un pamphlet fustigeant le monde moderne, inhumain et indifférent et un roman offrant le récit d'une imposture et d'une déchéance.

anne valerie noir ardisson: The Despair of Monkeys and Other Trifles Françoise Hardy, 2018-05-15 "I was for a very long time passionately in love with her, as I'm sure she's guessed. Every male in the world, and a number of females also were, and we all still are." —David Bowie "Françoise was the ultimate pin-up of most hip bedroom walls, and I know for a fact that Brian Jones and Mick Jagger, John Lennon, Paul McCartney, and many other pop stars were desperately interested in having Françoise Hardy become their girlfriend in some way." —Malcolm McLaren Françoise Hardy is best known in Europe for originating the famed "Yé-Yé" sound in pop music which began a cultural scene in the early 1960s. Her teenage success grew as she became a much-photographed fashion model and actress. Adored for her shy beauty and emotional songwriting, she sang hit songs in French, Italian, and German. In The Despair of Monkeys and Other Trifles, she bares her soul and tells the truth of her relationships, fears, and triumphs as well as the hard-won wisdom carved from a life well-lived. This unusually-titled memoir has sold millions

of copies in its French, German, Italian, and Spanish editions in recent years. This first English-language release is expertly translated by Jon E. Graham. The book contains dozens of images in addition to Hardy's intimate recollections of her upbringing and career. Françoise Hardy, an accomplished songwriter and lyricist also collaborated with accomplished songwriters such as Leonard Cohen, Serge Gainsbourg, and Patrick Modiano. Both her early pop work and later material in a complex and mature style helped generate a dedicated cult following. Both her husband, Jacques Dutronc, and son, Thomas Dutronc, are respected musicians in France.

anne valerie noir ardisson: *The Ancestor Syndrome* Anne Ancelin Schutzenberger, 2014-02-25 In *The Ancestor Syndrome* Anne Ancelin Schutzenberger explains and provides clinical examples of her unique psychogenealogical approach to psychotherapy. She shows how, as mere links in a chain of generations, we may have no choice in having the events and traumas experienced by our ancestors visited upon us in our own lifetime. The book includes fascinating case studies and examples of 'genosociograms' (family trees) to illustrate how her clients have conquered seemingly irrational fears, psychological and even physical difficulties by discovering and understanding the parallels between their own life and the lives of their forebears. The theory of 'invisible loyalty' owed to previous generations, which may make us unwittingly re-enact their life events, is discussed in the light of ongoing research into transgenerational therapy. Anne Ancelin Schutzenberger draws on over 20 years of experience as a therapist and analyst and is a well-respected authority, particularly in the field of Group Therapy and Psychodrama. First published as *Aie, mes Aïeux* this fascinating insight into a unique style of clinical work has already sold over 32,000 copies in France and will appeal to anyone working in the psychotherapy profession.

anne valerie noir ardisson: *Losing Military Supremacy* Andrei Martyanov, 2018-06-04 Martyanov explains why and how the US armed forces have lost the military supremacy they thought they once had and how Russia, which supposedly had been defeated in the Cold War, succeeded not only in catching up with USA, but actually surpassing it in many key domains such as long range cruise missiles, diesel-electric submarines, air defenses, electronic warfare, air superiority and many others. Andrei Martyanov's book is an absolute 'must read' for any person wanting to understand the reality of modern warfare and super-power competition. THE SAKER While exceptionalism is not unique to America, the intensity of their conviction and its global ramifications are. This view of its exceptionalism has led the US to grossly misinterpret—sometimes deliberately—the causative factors of key events of the past two centuries. Accordingly, the wrong conclusions have been derived, and very wrong lessons learned. Nowhere has this been more manifest than in American military thought and its actual application of military power. Time after time the American military has failed to match lofty declarations about its superiority, producing instead a mediocre record of military accomplishments. Starting from the Korean War the United States hasn't won a single war against a technologically inferior, but mentally tough enemy. The technological dimension of American "strategy" has completely overshadowed any concern with the social, cultural, operational and even tactical requirements of military (and political) conflict. With a new Cold War with Russia emerging, the United States enters a new period of geopolitical turbulence completely unprepared in any meaningful way—intellectually, economically, militarily or culturally—to face a reality which was hidden for the last 70+ years behind the curtain of never-ending Chalabi moments and a strategic delusion concerning Russia, whose history the US viewed through a Solzhenitsified caricature kept alive by a powerful neocon lobby, which even today dominates US policy makers' minds. Martyanov's former Soviet military background enables deep insight into the fundamental issues of warfare and military power as a function of national power—assessed correctly, not through the lens of Wall Street "economic" indices and a FIRE economy, but through the numbers of

enclosed technological cycles and culture, much of which has been shaped in Russia by continental warfare and which is practically absent in the US.

anne valerie noir ardisson: Hitler's Beneficiaries Götz Aly, 2016-10-04 How did Hitler win the allegiance of ordinary Germans? The answer is as shocking as it is persuasive. By engaging in a campaign of theft on an almost unimaginable scale-and by channelling the proceeds into generous social programmes-Hitler bought his people's consent. Drawing on secret files and financial records, Gtz Aly shows that while Jews and people of occupied lands suffered crippling taxation, mass looting, enslavement, and destruction, most Germans enjoyed a much-improved standard of living. Buoyed by the millions of packages soldiers sent from the front, Germans also benefited from the systematic plunder of conquered territory and the transfer of Jewish possessions into their homes and pockets. Any qualms were swept away by waves of government handouts, tax breaks, and preferential legislation. Gripping and significant, Hitler's Beneficiaries makes a radically new contribution to our understanding of Nazi aggression, the Holocaust, and the complicity of a people.

anne valerie noir ardisson: Global Wikipedia Pnina Fichman, Noriko Hara, 2014-05-15 Dozens of books about Wikipedia are available, but they all focus on the English Wikipedia and assume an Anglo-Saxon perspective, while disregarding cultural and language variability or multi-cultural collaborative efforts. They address the impact of Wikipedia on society, processes of mass knowledge production, and the dynamics of the Wikipedia community. However, none of them focus on Wikipedia's global features. This lack of attention presents a serious problem because more than 80% of Wikipedia articles are written in languages other than English---in fact, Wikipedia includes articles in 285 languages. *Global Wikipedia: International and Cross-Cultural Issues in Online Collaboration* is the first book to address this gap by focusing attention on the global, multilingual, and multicultural aspects of Wikipedia. The editors showcase research on Wikipedia, exploring a wide range of international and cross-cultural issues. Online global collaboration, coordination, and conflict management are examined in this rich socio technical environment. Special emphases include International and cross-cultural collaboration; Intercultural synergy on Wikimedia; Conflict and collaboration in editing international entries; Case studies of Chinese, Finnish, French, and Greek Wikipedias; and, Cross-cultural studies that compare more than one Wikipedia, focusing on content, structures, policies, contributions, interactions, processes, motivations, and challenges.

anne valerie noir ardisson: The French Resistance Olivier Wieviorka, 2016-04-25 "Whatever happens, the flame of French resistance must not and will not go out." As Charles de Gaulle ended his radio address to the French nation in June 1940, listeners must have felt a surge of patriotism tinged with uncertainty. Who would keep the flame burning through dark years of occupation? At what cost? Olivier Wieviorka presents a comprehensive history of the French Resistance, synthesizing its social, political, and military aspects to offer fresh insights into its operation. Detailing the Resistance from the inside out, he reveals not one organization but many interlocking groups often at odds over goals, methods, and leadership. He debunks lingering myths, including the idea that the Resistance sprang up in response to the exhortations of de Gaulle's Free French government-in-exile. The Resistance was homegrown, arising from the soil of French civil society. Resisters had to improvise in the fight against the Nazis and the collaborationist Vichy regime. They had no blueprint to follow, but resisters from all walks of life and across the political spectrum formed networks, organizing activities from printing newspapers to rescuing downed airmen to sabotage. Although the Resistance was never strong enough to fight the Germans openly, it provided the Allies invaluable intelligence, sowed havoc behind enemy lines on D-Day, and played a key role in Paris's liberation. Wieviorka shatters the conventional image of a united resistance with no interest in political power. But setting the record straight does not tarnish the legacy of its fighters, who braved Nazism without blinking.

anne valerie noir ardisson: Reading the River Myrna Kostash, Duane Burton, 2005 Framed within her own view of this great river, well-known prairie writer Myrna Kostash has combed the

available literature to compile this compendium of writings - poetry, fiction and non-fiction -- from those who spent time reading the river. Beginning with Saskatchewan River Crossing, at the river's source, she takes the reader through 21 communities along the North Saskatchewan, from Edmonton to Prince Albert, from Shandro Crossing (Alberta) to The Pas (Manitoba). Included are the words of people from writers like Hugh McLennan, Eli Mandel, Aritha van Herk, John V. Hicks, and Tomson Highway, to the explorer Alexander Mackenzie, 19th Century mountaineer James Monroe Thorington, to a Cree legend. Reading the River opens with an introduction by Myrna Kostash, and a charting of the geological origins of the North Saskatchewan River, and closes it with The Future River, a commentary in several voices on, among other things, the river's likely return to a place of prominence in prairie lives, not as a transportation route, but this time as a source of crucial fresh water. Each author has a concise biography, setting their remarks in the context of their time and their works. What emerges is a portrait of this vital lifeline, the terrain and the culture that grew, and is growing, on its shores, to be appreciated by anyone who travels on, along, or merely to, the great river.

anne valerie noir ardisson: Cafe Society Thierry Coudert, 2019-09-03 Aristocrats, millionaires, painters, fashion designers, choreographers, and musicians of the café society fox-trot aboard cruise liners and mingle at dazzling parties in Paris. Exclusive, extravagant, and beautiful, these cosmopolitan socialites were the patrons who galvanized the phenomenal success of the greatest creators of the early twentieth century. It was a whirlwind of sumptuously decorated villas and yachts, up-and-coming haute couture and jewelry designers, and elite evening parties, immortalized by fashion photographers like Cecil Beaton. Combining elegance and fantasy, the members of the café society enjoyed a sophisticated, avant-garde lifestyle. Some of the century's most original talents—from Cole Porter to Yves Saint Laurent—stepped into the limelight via the café society. Through archival photographs and period documents, this volume recounts in historical detail the intrigue and impact generated around the world by this stylish jet-set.

anne valerie noir ardisson: Autour de l'extrême littéraire Alastair Hemmens, Russell Williams, 2012-12-18 The extreme is an essential aspect of contemporary experience. Thrill-seekers spend the weekend in the search of the adrenaline rush of "extreme sports". In the political arena, the world has begun to rediscover the split between the "extreme" left and the "extreme" right. Through 24-hour rolling news, images of violence, torture and war are televised unremittingly into the living room; while the Internet places hardcore pornography, snuff film and cannibalism within easy reach of anyone with a personal computer or a smartphone. The "extreme" has even become a quality companies seek to associate with the most banal of commodities such as ice cream and hair gel. These different manifestations of extremity suggest a contradictory, even paradoxical, relationship with the "extreme". The contributors to this book explore how writing in French, from the Middle Ages to the present day, has interrogated extremity. Taken together, these essays demonstrate that the quality of the extreme can be applied to a great number of texts for different reasons and from myriad perspectives. Moreover, the extreme is revealed as a quality both distinct from, and in tension with, the crossing of boundaries associated with transgression. It is a movement towards and away from a centre of radiation that escapes cultural norms without necessarily reinforcing them. This sensation of rushing and wandering outside the boundaries of what is considered safe and normal provides the extreme with its adrenaline-charged response of excitement or horror. The analyses contained in this volume consider a number of manifestations of

the “extrême littéraire”. The ambiguities of gender in medieval romance are explored in the context of the Arthurian court. The 19th century is examined through the prose poems of Baudelaire and the littérature sauvage of the Zutistes. The difficulties of writing the trauma of war and genocide in the 20th century are discussed through the work of Jorge Semprún and Agota Kristof. The contemporary extreme in French literature is examined in the autofiction of Christine Angot, the work of Annie Ernaux and Catherine Millet, the controversial novels of Michel Houellebecq, and the worldwide influence of the Marquis de Sade on writing today. Whilst the “extrême littéraire” may have a wide variety of expressions in French literature, it is always outside, beyond and far from the centre of our everyday experience. It shocks us, excites us and horrifies us, often all at once. This book seeks to provide an insight into how and why the extreme has fascinated, and continues to fascinate, the French literary imagination.
