Zog I was a crucial figure in modern Albanian history, creating - or attempting to create - national and cultural identity for a country that had known little stability or sense of identity since the middle ages. He was also the most unusual monarch of the 20th century, described by contemporaries as: a despotic brigand; the modern Napoleon; Mussolini's lackey; the finest patriot; frankly a cad. This biography shows Zog as the product of a unique time and place. People who live in secure, stable countries are invited to set aside their assumptions about European monarchy and meet a king who fired back at assassins and paid his bills with gold bars.

mery sur oise chateau: **The Icarus Factor** Rod McQueen, 2011-07-27 In June 2000, Edgar Bronfman Jr. sold Seagram Co. to French media giant Vivendi in a \$34-billion deal. Young, handsome and fabulously rich, Edgar Jr. seemed finally to have silenced the detractors who for fifteen years had scorned him, calling him a naïve dilettante and "the star-struck whisky king." As the third-generation president and CEO of a family dynasty in the booze business, Edgar Jr. had made controversial corporate decisions. In 1995 he sold Seagram's holding in the secure but boring DuPont to buy Hollywood studio MCA. In 1998, he acquired PolyGram, thereby creating the world's largest record company. In 2000, when convergence was the corporate mantra, he merged Seagram with Vivendi. At fifteen, Edgar Jr. had been designated by his grandfather, Sam Bronfman, Seagram's legendary founder, to eventually head the business Mr. Sam had built as a bootlegger during Prohibition. For Edgar Jr., that choice turned into a curse as he agonized over Mr. Sam's prescient 1966 warning: "Shirtsleeves to shirtsleeves in three generations. I'm worried about the third generation. Empires have come and gone." In 1994 when Edgar Jr. succeeded his father, he announced: "I'm not going down in history as the one Bronfman who pissed away the family fortune." Despite all his efforts, Edgar Jr. could not avoid his destiny. The value of the Bronfman family holdings in Seagram - swapped for shares in Vivendi - fell by almost three-quarters from \$8.2 billion to \$2.2 billion between 2000 and 2002. Business Week featured Edgar Jr. on its "Worst Managers List," calling him the "most desperate billionaire around." In this unauthorized biography, acclaimed and award-winning business writer Rod McQueen tells the gripping story of an empire's demise. Based on 150 revealing interviews with high school friends, associates from his Hollywood and Broadway days, as well as former colleagues, officers and directors at Seagram and Vivendi, *The Icarus Factor* tracks Edgar Jr. on his meteoric rise and spectacular fall. In addition to Edgar Jr. himself, McQueen interviewed many powerful media and entertainment leaders including Frank Biondi Jr., Jack Valenti, Barry Diller, Ron Meyer, Doug Morris, and Herbert Allen Jr. What emerges is a compelling and intimate portrait of a man who wrestled with his own fervent dreams and family responsibilities. This is a story about duty and destiny, passion and performance, family and failure. Above all, it is a cautionary tale about the complex relationship between a father and a son with catastrophic consequences.

mery sur oise chateau: Environmental Geomechanics Bernhard A. Schrefler, Pierre Delage, 2013-03-28 This book covers a range of topics that are of increasing importance in engineering practice: natural hazards, pollution, and environmental protection through good practice. The first half of the book deals with natural risk factors, of both natural and human origin, that should be considered: subsidence, accidental infiltration, soil instability, rockslides and mudslides, debris flow,

and degradation of buildings and monuments due to pollution and climactic effects, for example. These problems are highlighted and it is shown that a combination of sophisticated numerical techniques and extensive experimental investigations are necessary in order to effectively tackle these problems. The second half of the book is devoted to the use of polluted sites and associated problems, a topic of growing significance given the increasing reclamation of land from abandoned industrial sites for urban development over the last 20 years. Different types of oil pollution and decontamination methods are described, followed by a discussion of waste management and detailed coverage of confinement liners used in surface waste disposal.

mery sur oise chateau: *Dividing Paris* Esther da Costa Meyer, 2022-02-15 A groundbreaking work of scholarship that sheds critical new light on the urban renewal of Paris under Napoleon III. In the mid-nineteenth century, Napoleon III and his prefect, Georges-Eugène Haussmann, adapted Paris to the requirements of industrial capitalism, endowing the old city with elegant boulevards, an enhanced water supply, modern sewers, and public greenery. Esther da Costa Meyer provides a major reassessment of this ambitious project, which resulted in widespread destruction in the historic center, displacing thousands of poor residents and polarizing the urban fabric. Drawing on newspapers, memoirs, and other archival materials, da Costa Meyer explores how people from different social strata—both women and men—experienced the urban reforms implemented by the Second Empire. As hundreds of tenements were destroyed to make way for upscale apartment buildings, thousands of impoverished residents were forced to the periphery, which lacked the services enjoyed by wealthier parts of the city. Challenging the idea of Paris as the capital of modernity, da Costa Meyer shows how the city was the hub of a sprawling colonial empire extending from the Caribbean to Asia, and exposes the underlying violence that enriched it at the expense of

overseas territories. This marvelously illustrated book brings to light the contributions of those who actually built and maintained the impressive infrastructure of Paris, and reveals the consequences of colonial practices for the city's cultural, economic, and political life.

mery sur oise chateau: *The Ones Who Got Away* Bill Yenne, 2024-01-04 A remarkable collection of accounts of intrepid American aircrew shot down over enemy lines during World War II and how they got away. To be an airman in the Eighth Air Force flying over the war-torn skies of Europe required skill, tenacity, and luck. Those who were shot down and evaded capture needed all of that and more if they were to make it back to friendly lines. These are their stories. Each is compiled from the original intelligence debrief written by the pilots or aircrew themselves. Bill Yenne details how a spider web of escape routes sprang up, created by the local Résistance. Downed airmen were clothed, given false papers, and hidden so they could be smuggled back to England. These efforts were then supplemented by Allied intelligence agents. But the risks remained the same. Capture could mean death. Their accounts are sometimes funny, often heartbreaking. P-47 pilot Joel McPherson feigned appendicitis and was able to escape from the local German military hospital – after he had his appendix removed. He spent weeks operating as a getaway driver for a Maquis bank robber gang before making it into neutral Spain. Bomber crewmen Fred Hartung and Norman Therrien found refuge at a French château, but later nearly froze to death crossing the icy Pyrenees with the Gestapo on their trail. The accounts of these men and others from the Mighty Eighth make this a story of defiance, foolhardiness, and bravery against the odds.
