transmania enquete sur les derives de l ideologie transgenre: Serial Girls Martine Delvaux, 2018-02-06 Everywhere you look patriarchal society reduces women to a series of repeating symbols: serial girls. On TV and in film, on the internet and in magazines, pop culture and ancient architecture, serial girls are all around us, moving in perfect sync—as dolls, as dancers, as statues. From Tiller Girls to Barbie dolls, Playboy bunnies to Pussy Riot, Martine Delvaux produces a provocative analysis of the many gendered assumptions that underlie modern culture. Delvaux draws on the works of Barthes, Foucault, de Beauvoir, Woolf, and more to argue that serial girls are not just the ubiquitous symbols of patriarchal domination but also offer the possibility of liberation.

transmania enquete sur les derives de l ideologie transgenre: Self-Confidence Charles Pépin, 2019-12-31 Inspired by great figures from Emerson and Nietzsche to Madonna and Serena Williams, this engaging philosophical essay explores the workings of self-confidence and how to develop it. Where does self-confidence come from? How does it work? What makes it stronger or weaker? Why are some people more confident than others? Is it only a question of temperament or the result of conscious self-improvement? How do you get closer to those who stand out thanks entirely to their confidence in themselves? Drawing on philosophical texts, ancient wisdom, positive psychology, and a wide range of case studies that feature famous thinkers, artists, and athletes, but also unsung heroes such as a fighter pilot and an urgent-care doctor, Charles Pépin brings to light the strange alchemy that is self-confidence. In doing so, he gives us the keys to having more confidence in ourselves.

Abigail Shrier, a Wall Street Journal writer, does something simple yet devastating: she rigorously lays out the facts. —Janice Turner, The Times of London Until just a few years ago, gender dysphoria—severe discomfort in one's biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males

almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as “transgender.” These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans “influencers.” Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and “gender-affirming” educators and therapists who push life-changing interventions on young girls—including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. Abigail Shrier, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to “detransitioners”—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls’ social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their daughters. A generation of girls is at risk. Abigail Shrier’s essential book will help you understand what the trans craze is and how you can inoculate your child against it—or how to retrieve her from this dangerous path.

From the author of *Fight Club*, the classic portrait of the damaged contemporary male psyche, now comes this novel about the apocalyptic marketing possibilities of a new product that gives new meaning to the term self-help. Penny Harrigan is a low-level associate in a big Manhattan law firm with an apartment in Queens and no love life at all. So it comes as a great shock when she finds herself invited to dinner by one C. Linus Maxwell, a software mega-billionaire and lover of the most gorgeous and accomplished women on earth. After dining at Manhattan's most exclusive restaurant, he whisks Penny off to a hotel suite in Paris, where he proceeds, notebook in hand, to bring her to previously undreamed-of heights of gratification for days on end. What's not to like? This: Penny discovers that she is a test subject for the final development of a line of feminine products to be marketed in a nationwide chain of boutiques called Beautiful You. So potent and effective are these devices that women by the millions line up outside the stores on opening day and then lock themselves in their room with them and stop coming out. Except for batteries. Maxwell's plan for battery-powered world domination must be stopped. But how?

Her story and others like it—from dogs “adopting” the injuries of their companions, to rats helping fellow rats in distress, to elephants revisiting the bones of their loved ones—show that humans are not the only species with the capacity for love, hate, fear, shame, guilt, joy, disgust, and empathy. Frans de Waal opens our hearts and minds to the many ways in which humans and other animals are connected.

In them he speaks of the participation of images in the evolution of uprisings and peoples, the temporality they provide, the mise-en-scène of media propaganda, the use of horror, and the need to elaborate a right to a dignified image. What do images perform in times of uprising[s] and counter-revolution[s]? *The Insistence of Struggle* examines and confronts audiovisual and cinematic works as heterogeneous as

the films produced by the collective of filmmakers Abounaddara, the avant-garde montages of Dziga Vertov, the images by the 'anonymous', the documentary films of Stefano Savona, the videos made by ISIS, and certain works by Brian de Palma, Chris Marker or Harun Farocki, inviting us to rethink the limits and ethics of the visual. With each essay, the reader is not only confronted with the images of past and present struggles, but also with how these images persist and encourage future struggles.

transmania enquete sur les derives de l ideologie transgenre: Pythagorean Knowledge from the Ancient to the Modern World Almut-Barbara Renger, Alessandro Stavru, 2016 In both ancient tradition and modern research Pythagoreanism has been understood as a religious sect or as a philosophical and scientific community. Numerous attempts have been made to reconcile these pictures as well as to analyze them separately. The most recent scholarship compartmentalizes different facets of Pythagorean knowledge, but this offers no context for exploring their origins, development, and interdependence. This collection aims to reverse this trend, addressing connections between the different fields of Pythagorean knowledge, such as eschatology, metempsychosis, metaphysics, epistemology, arithmology and numerology, music, dietetics and medicine as well as politics. In particular, the contributions discuss how the Pythagorean way of life related to more doctrinal aspects of knowledge, such as Pythagorean religion and science. The volume explores the effects of this interdependence between different kinds of knowledge both within the Pythagorean corpus and in its later reception. Chapters cover historical periods from the Archaic Period (6th century BC) to Neoplatonism, Early Christianity, the European and Arabic Middle Ages, and the Renaissance through to the Early Modern Period (17th century AD). In this rigorous and supremely honest book Alain de Botton helps us navigate the intimate and exciting - yet often confusing and difficult - experience that is sex. Few of us tend to feel we're entirely normal when it comes to sex, and what we're supposed to be feeling rarely matches up with the reality. How To Think More About Sex argues that 21st-century sex is ultimately fated to be a balancing act between love and desire, and adventure and commitment. Covering topics that include lust, fetishism, adultery and pornography, Alain de Botton frankly articulates the dilemmas of modern sexuality, offering insights and consolation to help us think more deeply and wisely about the sex we are, or aren't, having. transmania enquete sur les derives de l ideologie transgenre: In Praise of Risk Anne Dufourmantelle, 2019-10-01 A philosophical critique of how society encourages us to avoid risk when we should instead accept it. When Anne Dufourmantelle drowned in a heroic attempt to save two children caught in rough seas, obituaries around the world rarely failed to recall that she authored *In Praise of Risk*, implying that her death confirmed the ancient adage that to philosophize is to learn how to die. Now available in English, this magnificent book indeed offers a trenchant critique of the psychic work that the modern world devotes to avoiding risk. Yet this is not a book on how to die but on how to live. For Dufourmantelle, risk entails an encounter not with an external

threat to life but with something hidden in life that conditions our approach to such ordinary risks as disobedience, passion, addiction, leaving family, and solitude. Keeping jargon to a minimum, Dufourmantelle weaves philosophical reflections together with clinical case histories. The everyday fears, traumas, and resistances that therapy addresses brush up against such broader concerns as terrorism, insurance, addiction, artistic creation, and political revolution. Taking up a project than joins the work of many French thinkers, such as Jacques Lacan, Jacques Derrida, Jean-Luc Nancy, Hélène Cixous, Giorgio Agamben, and Catherine Malabou, Dufourmantelle works to dislodge Western philosophy, psychoanalysis, ethics, and politics from the redemptive logic of sacrifice. She discovers the kernel of a future beyond annihilation where one might least expect to find it, hidden in the unconscious. In an era defined by enhanced security measures, border walls, trigger warnings, and endless litigation, Dufourmantelle's masterwork provides a much-needed celebration of the risks that define what it means to live. Praise for *In Praise of Risk* "Dufourmantelle's beautiful book places us on the side of life and love, showing us the power of psychoanalytic reflection on those moments when we are asked to find the courage to risk ourselves on behalf of the other." —Jamieson Webster, author of *Conversion Disorder* "Magisterial. Dufourmantelle shows how life is universalized in risk and how recognizing this fact means enlisting in a fraternity among humans." —Antonio Negri "This very rich book will have enormous appeal for readers interested in the intersection of philosophy, psychology, psychoanalysis, and humanistic inquiry. It productively challenges the assumptions of all these disciplines in novel ways and offers, in the final analysis, a redemptive path through that which matters to us most: living and dying well. Highly recommended." —Choice

While the mainstream New Naturalist volumes were initially intended to deal with broad subjects such as wild flowers, insects or National Parks, a parallel New Naturalist series of monographs on single species or related groups of species was also published between 1948 and 1971. There have been no additions since. Now, for the first time in over forty years, these best-selling volumes are available again. The New Naturalist monographs shared the same high standards of the main series and were envisioned as relatively short books of about 50,000 words, and in a smaller format than the main series. transmania enquete sur les derives de l ideologie transgenre: *Love of Mirrors* Gary Hyland, 2008 In 'The Love of Mirrors', Gary Hyland blends the most evocative work from his six prior collections with fourteen previously unpublished poems, to reveal an astonishing range of human experience. Calling upon a lifetime of subtle observation, Hyland uses a range of styles and techniques to take his reader on a journey from the playful innocence of childhood, through the bitter compromise of mid-life, to ultimately discover peace in the simple joys of daily life beneath a lengthening shadow of mortality. The resulting collection possesses a narrative voice strong enough to draw the reader inexorably along a path full of the unexpected twists that comprise a life. Hyland is not content to limit himself to the internal personal struggle, but also addresses the superficial glitter and lingering ambivalence of our post-9/11 society. Not shying away from the hollow pain of random violence and abuse, he creates a cast of vivid characters that challenge readers to slip beneath their skins and experience their haunting stories directly. In the end, the reader will possess the feeling of having traveled far and experienced much on a route that, even when it brushes the darkest acts, ultimately leads to a haven where even the unworthy can rise above their circumstances and feel the transcendence of hope.

transmania enquete sur les derives de l ideologie transgenre: *Facing Diasporic Trauma* Fatim Boutros, 2015-11-09 Fictional writing has an important mnemonic function for the Afro-Caribbean community. It facilitates an encounter between contemporary societies and their historical origins. The representation of diasporic trauma in the novels of Fred D'Aguiar, John

Hearne, and Caryl Phillips challenges territorial under-standings of nationality and raises awareness of the eurocentric basis of Western historiography. Slavery is a recurring motif of the nine novels analysed in this study. They narrate the fates of silenced victims who all share the traumatic experience of racial violence even if otherwise separated through time, space, gender and age. These charismatic fictional characters facilitate an empathic access to the history of slavery that goes beyond the anonymity of traditional historical sources. Their most private and intimate sorrows make the traumatic conditions of slavery appear much less remote and reveal their suffering. The euphemistic and distorting selection of the events that has been passed down by the dominant culture is thus countered by a relentless display of historical violence. These literary images establish an important symbolic repertoire and introduce powerful founding myths of the diaspora. In spite of the traumatic foundations of the community, the nine novels display considerable optimism about the possibility of a convivial future that transcends racial boundaries. The capacity and willingness to improvise and adapt to new environments and to do so even in face of a traumatic heritage can be regarded as the most important precondition for positive future developments within the matrix of a rapidly transforming global environment.

transmania enquete sur les derives de l ideologie transgenre: Crisis and Opportunity Francois Falloux, Lee M Talbot, 2013-11-05 Winner of the Prix Pierre Chauleur of the French Academie des Sciences d'Outre-Mer Until some way is found of dealing with Africa's catastrophic environmental crises none of the continent's other problems will find a long-term solution. Yet there is hope, and Crisis and Opportunity sets out a programme for dealing with the problems successfully. Written in a clear and engaging style, the book shows how environmental management can be achieved and institutionalized from within Africa, rather than through interference from the West, by implementing National Environmental Action Plans (NEAPS). Aware of the urgency of the problems, Francois Falloux and Lee Talbot offer practical guidelines based on direct experience and incorporate a great range of relevant case studies and examples. Their book will be of enormous importance to the governments, local communities and development agencies confronting the issues, and may mark a milestone if recovery in Africa is to take place. Francois Falloux is Senior Environmental Advisor, Africa Region at the World Bank. Dr Lee M Talbot is a former Director-General of the World Conservation Union (IUCN). Originally published in 1993

transmania enquete sur les derives de l ideologie transgenre: Gender and Political Culture in Early Modern Europe, 1400-1800 James Daybell, Svante Norrhem, 2016-07-01 Gender and Political Culture in Early Modern Europe investigates the gendered nature of political culture across early modern Europe by exploring the relationship between gender, power, and political authority and influence. This collection offers a rethinking of what constituted 'politics' and a reconsideration of how men and women operated as part of political culture. It demonstrates how underlying structures could enable or constrain political action, and how political power and influence could be exercised through social and cultural practices. The book is divided into four parts - diplomacy, gifts and the politics of exchange; socio-economic structures; gendered politics at court; and voting and political representations - each of which looks at a series of interrelated themes exploring the ways in which political culture is inflected by questions of gender. In addition to examples drawn from across Europe, including Austria, the Dutch Republic, the Italian States and Scandinavia, the volume also takes a transnational comparative approach, crossing national borders, while the concluding chapter, by Merry Wiesner-Hanks, offers a global perspective on the field and encourages comparative analysis both chronologically and geographically. As the first collection to draw together early modern gender and political culture, this book is the perfect starting point for students exploring this fascinating topic.

transmania enquete sur les derives de l ideologie transgenre: Writing After Postcolonialism Jane Hiddleston, 2017-09-21 'Focusing on francophone writing from North Africa as it has developed since the 1980s, Writing After Postcolonialism explores the extent to which the notion of 'postcolonialism' is still resonant for literary writers a generation or more after independence, and examines the troubled status of literature in society and politics during this period. Whilst analysing the ways in which writers from Algeria, Morocco and Tunisia have reacted to political unrest and social dissatisfaction, Jane Hiddleston offers a compelling reflection on literature's ability to interrogate the postcolonial nation as well as on its own uncertain role in the current context. The book sets out both to situate the recent generation of francophone writers in North Africa in relation to contemporary politics, to postcolonial theory, and evolving notions of 'world literature, and to probe the ways in which a new and highly sophisticated set of writers reflect on the very notion of 'the literary' during this period of transition.'

transmania enquete sur les derives de l ideologie transgenre: *Medieval Thought Experiments* Philip Knox, Jonathan Morton, Daniel Reeve, 2018 Throughout the Middle Ages, fictional frameworks could be used as imaginative spaces in which to test or play with ideas without asserting their truth. The aim of this volume is to consider how intellectual problems were approached--if not necessarily resolved--through the kinds of hypothetical enquiry found in poetry and in other texts that employ fictional or imaginative strategies. Scholars working across the spectrum of medieval languages and academic disciplines consider why a writer might choose a fictional or hypothetical frame to discuss theoretical questions, how a work's truth content is affected and shaped by its fictive nature, or what kinds of affective or intellectual work its reading demands. By reading literary, philosophical, and spiritual texts from England, France, and Italy alongside each other, this collection offers a new interdisciplinary approach to the history of medieval thought.

transmania enquête sur les dérives de l'idéologie transgenre: *Faces of Identity and Memory* Ewa Kocój, Łukasz Gawel, 2015 Across central and eastern Europe, the traces of vanished cultures remain. Empty, devastated synagogues, Orthodox, Greek and Roman Catholic churches serving as warehouses, fallen mansions, abandoned homes. Alongside the majority groups, there once lived minority and stateless communities, ultimately torn apart by totalitarian regimes. Yet the fall of communism has allowed for the memory of the missing to surface, triggering efforts to rescue their tangible and intangible heritage. This book joins in these efforts by public, independent, private, and non-profit institutions, as well as local activists, to preserve a fading past. It makes clear how tragic it would be to let the minority history and collective memory of this region disappear.
